Hello Sir

Thank you once again for giving me a KING size life. We are from Block ██████████

We are here in our SSM Nagar for the last 2 months, we really want to thank you for the wonderful atmosphere here.

Before shifting here, we had an initial hesitation about the safety, water and power supply. After moving we did not find any problem in the basic amenities. For any assistance we have the block engineers (Mr.Satish and Mr.Thyagarajan) to respond fast and efficiently.

Play areas around the block is the main showcase of our SSM Nagar, as most of the children are using effectively, my Son instead spending time on the TV or Electronic gadgets he used to go for cycling and to play out, we feel happy about it.

As the area is very safe and calm, we used to spend more time out in SSM Nagar than being inside our home, used to go for walk twice a day and feel more energetic. Happy to see people playing Shuttle in the evening and night.

Though the blocks were not fully occupied, all the common Lights used to glow from the evening and we didn't find insecure. We could see the campus full of positive energy and its help us to build of dreams.

I didn't get any intimation on the Monthly maintenance as it should have started from the month of April 2018, I know you are in financial trouble and don't want to be a burden for you and I am ready to pay by anytime.

**As the commercial blocks started please don't entertain the use plastic covers inside the campus, and this must be strictly followed thereby setting an example for others.**

I don't know whether Santham sir would read my mail, but please forward this message to him. Thank you.
